MEN HAQIMDA

Frontend Developer (React va TypeScript). Zamonaviy, komponentlarga asoslangan interfeyslarni React, TypeScript, Vite va Tailwind CSS yordamida ishlab chiqaman; loyihalarimning backend qismini ham Node.js, Express, Prisma va PostgreSQL bilan mustaqil qurib, Docker va Nginx orqali production muhitiga joylayman. EdTech, SaaS, IoT va Telegram yo'nalishlarida real mahsulotlar yaratganman. IT Park hamda "AI-Xorazimiy vorislari" loyihasi doirasida 150+ nafar o'quvchiga frontend dasturlash va kompyuter savodxonligi bo'yicha dars berganman.

Portfolio: [dilshodxdev.uz](#)

ISH TAJRIBASI

- IT Mentor — "AI-Xorazimiy vorislari" loyihasi**
IT Park · Xorazm, O'zbekiston Okt 2024 – Hozirgacha
- 5 ta guruhdagi 62 nafar o'quvchiga frontend, JavaScript, React va kompyuter savodxonligi bo'yicha amaliy mashg'ulotlar olib borish.
 - 30 nafar o'quvchi dasturni muvaffaqiyatli yakunlab sertifikat oldi; qolgan guruhlar o'qishni davom ettirmoqda.
- IT Mentor — Kompyuter savodxonligi**
IT Park · Xorazm, O'zbekiston Mar 2024 – Sen 2024
- Boshlang'ich darajadagi o'quvchilarga kompyuter savodxonligi, web texnologiyalari, grafik dizayn va UI/UX dizaynining asosiy tamoyillarini amaliy mashg'ulotlar orqali o'rgatish.
 - O'quv maqsadlariga mos dars rejalari, amaliy topshiriqlar va aniq baholash mezonlarini ishlab chiqish.
- Backend Developer**
DATA TA'LIM · Xorazm, O'zbekiston Mart 2023 – May 2023
- Node.js va Express yordamida REST API hamda server-side funksiyalarini ishlab chiqish.
 - Backend funksiyalarini ma'lumotlar bazasi bilan integratsiya qilish, mavjud kod bazasini refaktor qilish va qo'llab-quvvatlash.

TA'LIM

- Urganch davlat universiteti (UrDU)**
Bakalavr — Software Engineering, 4-kurs Sen 2023 – Hozirgacha
- DATA TA'LIM**
Backend Development — Node.js, Express va ma'lumotlar bazalari Noy 2022 – May 2023

LOYIHALAR

- AXV Dilshod — EdTech boshqaruv platformasi**
2025 – Hozirgacha [axvdilshod.uz](#)
- React, Vite va Tailwind CSS asosidagi interfeys orqali 77 nafar o'quvchi, 7 guruh va 68+ dars bo'yicha vazifa, davomat, natija va AI tekshiruvlarini yagona tizimda boshqaruvchi EdTech platforma; backend qismi Node.js, Express, Prisma va PostgreSQL asosida qurilgan.
- BarberPlus — SaaS platformasi**
2026 – Hozirgacha [barberplus.uz](#)
- Barberlar va salonlar uchun bron, mijozlar bazasi, jadval, xizmatlar va moliyaviy jarayonlarni boshqaruvchi SaaS platforma — mobil-birinchi, o'rnatiladigan PWA interfeysi React va TypeScript asosida qurilgan; backend — Node.js, Express, PostgreSQL, Prisma; Docker bilan joylangan.
- SmartControl IoT (SC Boiler)**
2026 – Hozirgacha [scboiler.uz](#)
- Ko'mir qozonlarida harorat, nasos, ventilyator va yoqilg'i uzatish mexanizmlarini React Native va TypeScript asosidagi mobil ilova orqali boshqaruvchi local-first IoT tizimi; qurilma qatlami — ESP32, C++, FreeRTOS; server qismi — Node.js.
- TaxiBronBot — viloyatlararo bron tizimi**
2025 [t.me/taxibronbot](#)
- Viloyatlararo qatnovlarda yo'lovchi va haydovchilarni bron asosida bog'lovchi faol Telegram bot; yo'nalish, vaqt, bo'sh joy va buyurtmalarni boshqaradi. Node.js, Telegram Bot API.

ABOUT ME

Frontend Developer specializing in React and TypeScript. I build responsive, component-driven interfaces with React, TypeScript, Vite, and Tailwind CSS, and independently develop the supporting backends with Node.js, Express, Prisma, and PostgreSQL, deploying to production with Docker and Nginx. I have delivered production products across EdTech, SaaS, IoT, and Telegram platforms and taught frontend development and computer literacy to 150+ students through IT Park and the “AI-Khwarizmi Successors” project.

Portfolio: dilshodxdev.uz ↗

WORK EXPERIENCE

○ IT Mentor — “AI-Khwarizmi Successors” Project IT Park · Khorezm, Uzbekistan	Oct 2024 – Present
- Deliver hands-on sessions in frontend development, JavaScript, React, and computer literacy to 62 students across 5 groups. - Thirty students successfully completed the program and received certificates; the remaining groups are continuing their studies.	
○ IT Mentor — Computer Literacy IT Park · Khorezm, Uzbekistan	Mar 2024 – Sep 2024
- Taught beginners computer literacy, web technologies, graphic design, and core UI/UX principles through practical sessions. - Designed lesson plans, hands-on assignments, and clear assessment criteria aligned with learning objectives.	
○ Backend Developer DATA TA'LIM · Khorezm, Uzbekistan	Mar 2023 – May 2023
- Developed REST APIs and server-side functionality with Node.js and Express. - Integrated backend functionality with databases, refactored the existing codebase, and provided ongoing maintenance.	

EDUCATION

Urgench State University (UrSU) Bachelor's Degree — Software Engineering, 4th year	Sep 2023 – Present
DATA TA'LIM Backend Development — Node.js, Express, and databases	Nov 2022 – May 2023

PROJECTS

○ AXV Dilshod — EdTech Management Platform 2025 – Present	axvdilshod.uz ↗
Production EdTech platform with a React + Vite + Tailwind CSS interface managing assignments, attendance, results, and AI-assisted reviews for 77 students, 7 groups, and 68+ lessons; backend built with Node.js, Express, Prisma, and PostgreSQL.	
○ BarberPlus — SaaS Platform 2026 – Present	barberplus.uz ↗
SaaS platform for barbers and salons with an installable, mobile-first PWA interface built in React and TypeScript, covering bookings, customer records, schedules, services, and financial workflows; Node.js, Express, PostgreSQL, and Prisma backend deployed with Docker.	
○ SmartControl IoT (SC Boiler) 2026 – Present	scboiler.uz ↗
Local-first IoT system controlling temperature, pumps, fans, and fuel-feeding mechanisms in coal-fired boilers through a React Native + TypeScript mobile app; device layer built with ESP32, C++, and FreeRTOS; Node.js server.	
○ TaxiBronBot — Interregional Booking System 2025	t.me/taxibronbot ↗
Active Telegram bot connecting passengers and drivers for interregional travel while managing routes, departure times, seat availability, and bookings. Node.js, Telegram Bot API.
